Subject: URGENT MEDICAL DEVICE RECALL

Affected Product: Various Sterile-Packaged Femoral Heads and Tapers (See Attachment 1)

Zimmer identified a subset of products that were manufactured prior to mid-2012 and packaged in a specific configuration that failed a packaging test due to potential compromise of the inner sterile tray. This packaging configuration consists of a double sterile barrier. There are no known incidents where the outer tray was compromised; therefore the device remains sterile when delivered during surgery. This recall is not related to sterility concerns, but rather the removal of any unconsumed product given that the packaging may not have the double sterile barrier as intended. Zimmer is conducting a voluntary recall of the unconsumed devices set out on Attachment 1.

Our records indicate that you may have received one or more of the affected products from this packaging configuration. Please note that the configuration ceased to be manufactured in mid-2012. Affected devices were distributed from May 2005 through November 2014.

Risks

- If a compromised tray is detected, a slight delay in surgery may result while another product is obtained.
- If an unlikely breach in both the inner and outer trays were to occur and is not detected, and there is contamination present, a periprosthetic infection is possible, which could potentially lead to revision. NOTE: Given the double sterile barrier packaging, the outer carton could be damaged without resulting compromise to the inner tray.

Your Responsibilities

1. Review this notification and ensure affected personnel are aware of the contents.
2. If you locate any unconsumed product listed on Attachment 1, quarantine the product and notify your Zimmer sales representative.
3. Your Zimmer sales representative will remove the affected product from your facility.
4. Please complete and return Attachment 2 to corporatequality.postmarket@zimmer.com.
5. **If after reviewing this notification you have further questions or concerns please contact your Zimmer contact person.**

Vigilance Information

This voluntary notification will be reported to the U.S. Food and Drug Administration and to the local Competent Authorities.

Any adverse reactions experienced with the use of these products, and/or quality problems may also be reported according to MEDDEV 2.12-1 Rev. 8 to the local health authority in your country.

Please keep Zimmer informed of any adverse events associated with this device or any other Zimmer product. Adverse events may be reported to Zimmer at zimmer.per@zimmer.com, or to your local Zimmer representative.

Kind regards
Matthias Bürger
Vice President
Quality Assurance and Regulatory Affairs - EMEA
