Discussion	Action / Decision / Suggestion
-------------------	---------------------------------------

1. Updates and discussions on gaps and challenges faced in MHPSS work by actors

<ul style="list-style-type: none"> ➤ Speech therapy, psychomotor therapy and services for persons with autism not available in Aley and West Bekaa. ➤ It was raised that there are no psychosocial support services in West Bekaa. ➤ Facility focal persons, contact details and activities are not accurate. It is becoming time consuming for social workers trying to refer person to services. ➤ Himaya is getting overloaded with child protection and case management cases. ➤ IMC are finding difficulty in finding shelters for Palestinians when awaiting admittance and at discharge from hospitals. Another organizations highlighted the fact that shelters for men from any nationality are scarce. ➤ Organizations are finding difficulty admitting persons to hospitals whom don't have families or guardians to sign on behalf of them. 	<ul style="list-style-type: none"> ➤ Mousawat and HI offer psychosocial support services in West Bekaa. ➤ The 4Ws online platform will be launched in the 1st week of November. All organizations can then report on their activities proactively to have an updated platform. ➤ MSF-Swiss have a clinic in Hermel and Arsal offering psychosocial support services. They also offer psychotherapy but are lacking psychiatric services. ➤ Admittance criteria will be shared by MoPH as soon as UNHCR
---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

<ul style="list-style-type: none"> ➤ UNRWA pointed out that admitting persons with past history of substance use is difficult. ➤ UNHCR are facing problems admitting people to hospitals because there is a long waiting list. Whenever UNHCR try to fasten admittance, persons refuse to go to the hospital which is a waste of effort and causes a problem with the hospital. Admitting persons through NextCare is becoming difficult as well. ➤ UNHCR will have a follow-up meeting with all partners regarding the criteria for admission to hospitals. ➤ Actors have pointed out that it is becoming stigmatizing to admit children and adolescents to Hopital de la Croix. 	<p>disseminates it.</p> <ul style="list-style-type: none"> ➤ Ain & Zein hospital is admitting adolescents with psychological illnesses. ➤ Hotel Dieu admits persons of Lebanese nationality under MoPH coverage.

2. Update on the 3rd Annual Mental Health Campaign

<ul style="list-style-type: none"> ➤ The MOPH launched the third annual national awareness campaign on mental health in a public event in Nejme Square in Beirut on the 14th of September featured live on Facebook, under the sponsorship of the World Health Organization, Abaad, IMC and MDM. ➤ The aim of the campaign is to increase knowledge around Mental Health and emphasize the importance of active listening and talking, through encouraging persons to talk about mental health openly, anytime and anywhere. ➤ The launching event included: <ul style="list-style-type: none"> - interactive awareness raising activities through booth organized by MHPSS actors (12 organizations participated). - Short documentary on public perception on mental health: Link - Testimonies of persons with lived experience: Link - Q&A with mental health professionals featured Live on Facebook: Link To watch an overview of the event: Link To watch the Awareness video of the campaign: Link ➤ The campaign will extend until World Mental Health Day (October 10). ➤ Slogan: "صار وقت نحكي صحة نفسية" "time to talk mental health" ➤ Hashtag: #صار_وقت_نحكي #Time_To_Talk 	<ul style="list-style-type: none"> ➤ It would be much appreciated if your organizations and yourselves could share the posts on Facebook to reach as many persons as possible ➤ An awareness presentation is being prepared by the Ministry of Public Health with the key messages of the campaign that will be disseminated to all actors for their use to deliver awareness sessions.
--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Through the MOPH facebook page awareness videos and a weekly infographic around mental health will be posted throughout the month until October 10. To follow and share: <https://www.facebook.com/mophleb/>

3. Brief Description on the Guide for the rational prescription of medications for priority mental and neurological conditions for specialists in the Public Health system

- | | |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <ul style="list-style-type: none"> ➤ The guide was developed in line with objective 2.3.4 of the national mental health strategy for Lebanon 2015-2020: “Develop guidelines for the rational prescription of psychotropic medications” ➤ Reference document for <u>evidence-based</u> and <u>culturally appropriate</u> decision-making for pharmacological treatment of priority mental and neurological conditions. ➤ Based on the “<i>National List of Psychotropic and Neurological Medications for Humanitarian Response, v2.0</i>” which was developed to harmonize the procurement and provision of medications amongst all actors. ➤ In addition, a separate list of medical tests needed to monitor the side effects of these medications (as per the guide) is available. ➤ In line with the continuum of care, this guide advocates for the <u>rational</u> medication prescription based on the national list and highlights the <u>importance of the psychosocial component in the treatment</u> of mental and neurological conditions as part of the holistic person-centred care. ➤ The process of development encompassed two rounds of technical review from experts at local and international levels. ➤ This guide was made possible through the fruitful collaboration between the MOPH-National Mental Health Programm and the World Health Organization | <ul style="list-style-type: none"> ➤ Next step: Orientation sessions for psychiatrists and neurologists on the guide in October-November 2018 ➤ Request was sent to share contacts of psychiatrists and neurologists working in your organisations to share with them invitation <ul style="list-style-type: none"> ○ If not done yet, please share |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

4. Updates and upcoming events from MoPH in line with the national mental health strategy implementation

- | | |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| <ul style="list-style-type: none"> ➤ An overview on the implementation status of the national mental health strategy was provided across its five domains of action (1)Leadership and governance, 2) Service organization and scale-up, 3)Promotion and Prevention, 4) Information, Evidence and Research and 5) Vulnerable Groups) | |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|

Some specific updates on projects and trainings included:

➤ **UPDATE on World BANK Project:**

Under World Bank supported project of MOPH “Emergency Primary Health Care Restoration Project” Towards universal health coverage: packages of mental health care will be subsidized in 40 PHCCs serving the most economically vulnerable populations in Lebanon”. Additional community mental health centers will also be established to cover all governorates.

➤ **Update on guided e-self help intervention:**

The Step by Step intervention (guided e- self-help intervention for adults) developed by MOPH and WHO Geneva was piloted in the beginning of 2018. It is a 5 sessions story-based online intervention through which persons can learn strategies to cope with difficult emotions such as stress, anger, anxiety, etc. Now, the programme that was running on website version, was turned into an application and is being finalized. Next Step: Randomized Controlled Trial (RCT) to study effectiveness. The RCT is currently in the feasibility phase; it will extend from October till the end of December.

➤ **Training of Trainers on the national self-care manual for frontliners:**

- In line with one of the objectives of the MHPSS TF 2018 Action Plan : national self-care manual for frontliners as developed.
- TOT is being organized by MOPH and ABAAD
- A call for applications has been sent to all actors in Lebanon who are interested.
- Self-care training will be held for trainers on October 15 and 16.
- Trainers will then administer the training to five groups of frontliners under the supervision of the MOPH-NMHP.
- Application deadline: Wednesday October 10th

➤ **Trainings for frontliners on the crisis management protocols**

- previously developed and piloted in line with the MHPSS TF Action Plan 2017
- Aim: provide guidance for non-health professionals on how to attend to a person in a crisis situation and to identify their primary concern (MH, shelter, SGBV, CP)
- The protocols are currently in the design and printing phase.
Six one day trainings will be conducted all over Lebanon’s regions (most probably beginning of November)
