**Urgent Field Safety Notice**

**SynCardia temporary Total Artificial Heart (TAH-t) with Bi-leaflet Valves  
RA-417**

Attention:

This letter is a notification that SynCardia Systems has removed the SynCardia temporary Total Artificial Heart (TAH-t) with bi-leaflet mechanical valves (P/N 550101-001) from the market.

The reason for the removal is that, in the EU post approval clinical study, examination of the left inflow valve of two explanted TAH-ts with bi-leaflet valves has revealed wear that is unacceptable to SynCardia Systems, Inc. There have been no reported patient adverse effects attributable to the TAH-t with bi-leaflet valves.

Please verify the disposition of each TAH-t with bi-leaflet valves that was shipped to you, including that any unused TAH-ts with bi-leaflet valves have been returned to SynCardia.

Please be advised that this notice will be provided to the appropriate Regulatory Agency.

If you have any questions, please contact me by telephone at +1-520 545-1234 or +1-520-440-██████████ or by email at ██████████@syncardia.com.

As always,

██████████  
Vice President of Global Communication & Logistics
