Cook CloverSnare 4-Loop Vascular Retrieval Snare - Snare Tip May Break During Use

Recall Class: Class I

Date Recall Initiated: July 17, 2014

Product: CloverSnare 4-Loop Vascular Retrieval Snare

- Model Number VRS-6.0-90
- Manufacturing Dates: August 2012 – August 2013
- Distribution Dates: March 8, 2013 – July 1, 2014
- 671 devices have been distributed nationwide

Use: The CloverSnare 4-Loop Vascular Retrieval Snare is used to manipulate and retrieve items in the cardiovascular system, such as temporary implanted devices. This includes inferior vena cava filters or broken devices (e.g., guidewires, coils, balloons, and catheters).

Recalling Firm:
Cook Inc.
750 N Daniels Way
Bloomington, Indiana 47404-9120

Reason for Recall:
There is a potential for the snare loop to separate from the shaft. If this occurs, the snare loop may travel through the vascular system and block blood vessels or become stuck in other organs, such as the heart and lungs. Additional intervention may be necessary to retrieve the separated snare loop from the patient. This failure will also cause the device to stop working. Four injuries have been reported.

The use of the affected product may cause serious adverse health consequences, including death.

Public Contact: Customers with questions may contact Cook Medical Customer Relations at 1-800-457-4500, Monday - Friday, 7:30 a.m. - 5:00 p.m., Eastern Standard Time or email CustomerrelationsNA@cookmedical.com (mailto:CustomerrelationsNA@cookmedical.com)

FDA District: Detroit District Office

More Information about this Recall:
On July 17, 2014, Cook Medical sent customers an Urgent Medical Device Recall letter informing them of the product, problem and actions to be taken. The firm requested customers:

- Separate any affected unused products from inventory.
- Collect and return all unused products to Cook Medical as soon as possible for credit.
- Complete and return the Recalled Product Reply Form to Cook Medical, separately or when returning the product.

**About Class I Recalls**

Class I recalls are the most serious type of recall and involve situations in which there is a reasonable probability that use of these products will cause serious adverse health consequences or death.

Health care professionals and consumers may report adverse reactions or quality problems they experienced using these products to MedWatch: The FDA Safety Information and Adverse Event Reporting Program ([https://www.accessdata.fda.gov/scripts/medwatch/](https://www.accessdata.fda.gov/scripts/medwatch/)) either online, by regular mail or by FAX.

Manufacturer Reason for Recall
This remedial action is the result of six product complaints associated with separation of the snare from the distal tip of the wire.

FDA Determined Cause
DESIGN: Device Design

Action
Cook Medical sent an Urgent Medical Device Recall letter dated July 17, 2014, to all affected customers. The letter identified the product, the problem, and the action to be taken by the customer. Customers were instructed to review the attached list of affected products and lot numbers shipped to their account, and quarantine any affected product that remains unused. Immediately collect and return all unused affected products to Cook Medical as soon as possible for credit. Complete the attached Recalled Product Reply Form and return to Cook Medical either with the product or separately. Customers were asked to report any Adverse Event to Cook Medical Customer Relations at 800-457-4500 or 1-812-339-2235.

Quantity in Commerce
096 devices total distribution (671 nationwide)
